

Euler Verlet RK4 scalar optimised

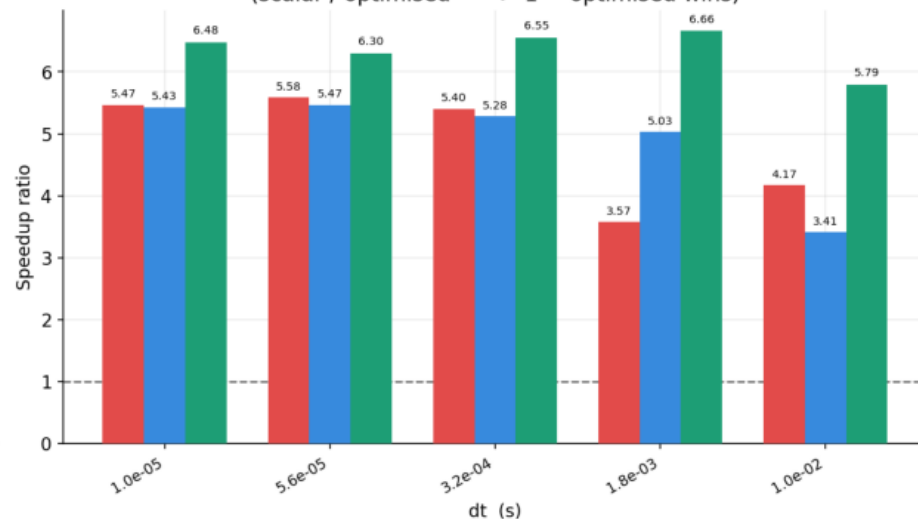

Euler Verlet RK4

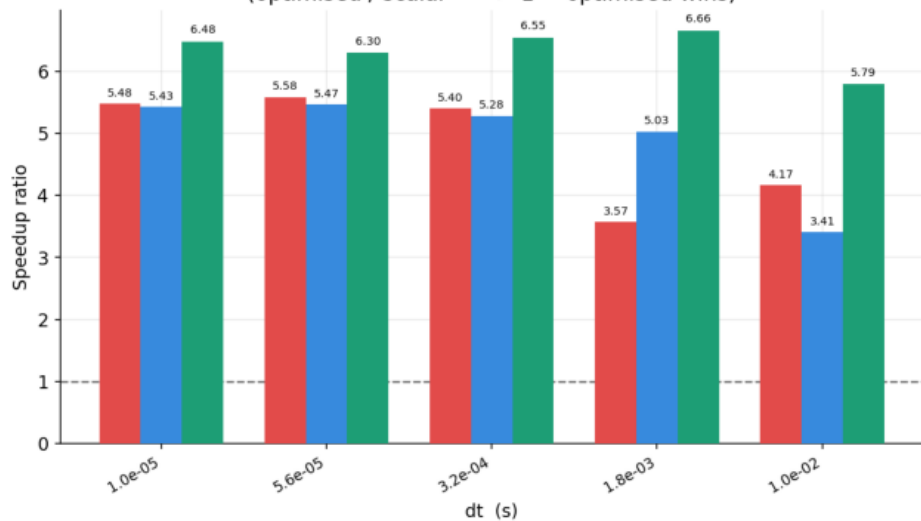

Wall-time speedup
(scalar / optimised — > 1 = optimised wins)

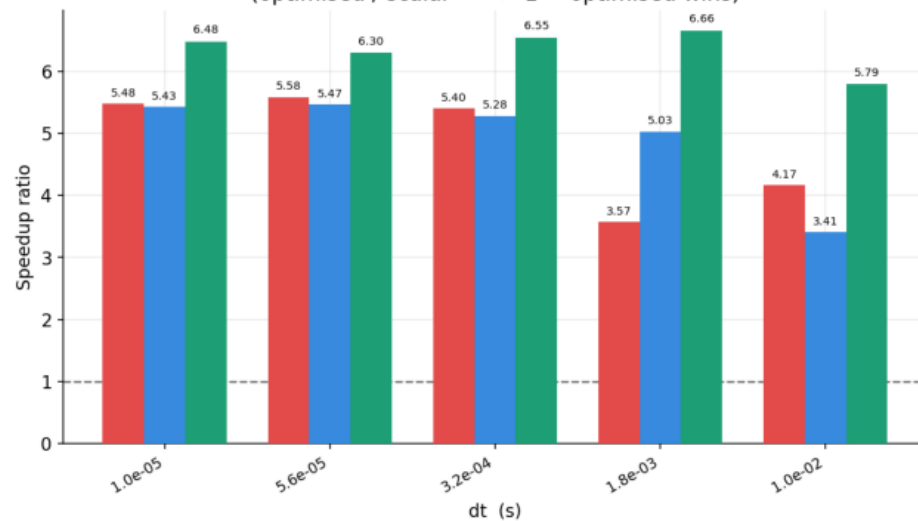

Time-per-step speedup
(scalar / optimised — > 1 = optimised wins)

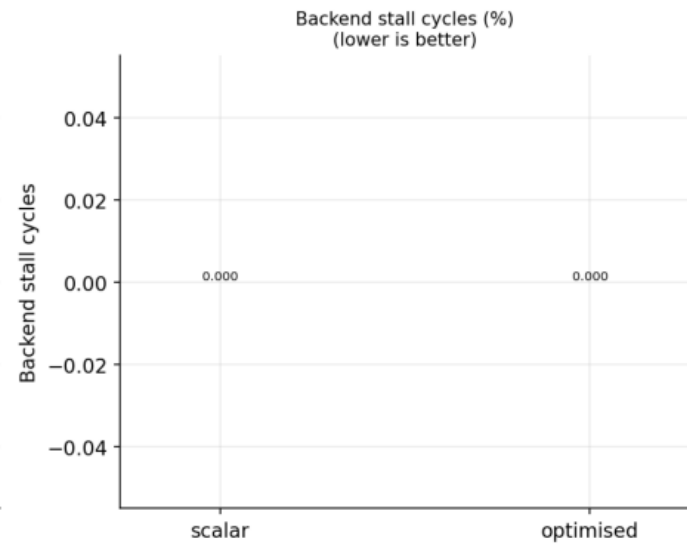

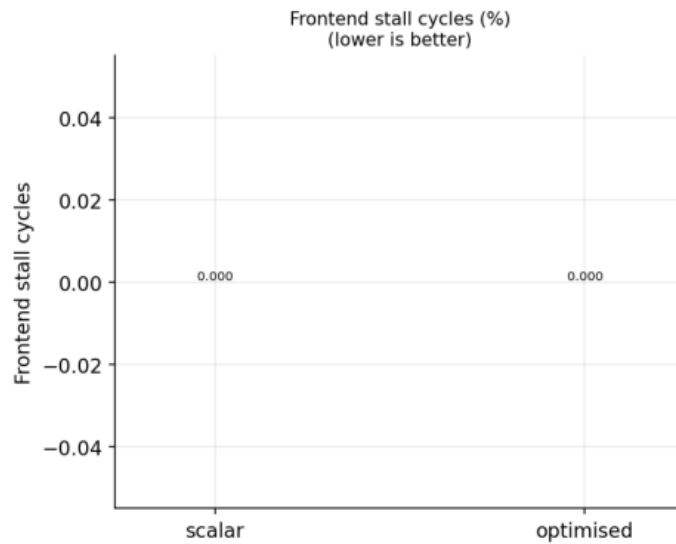

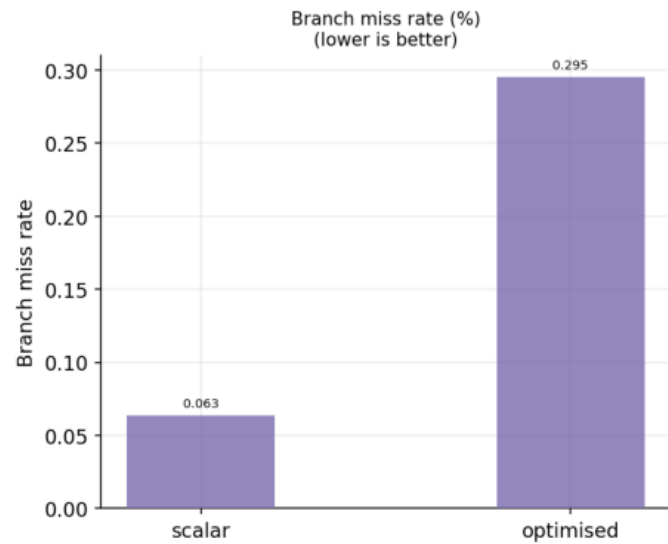

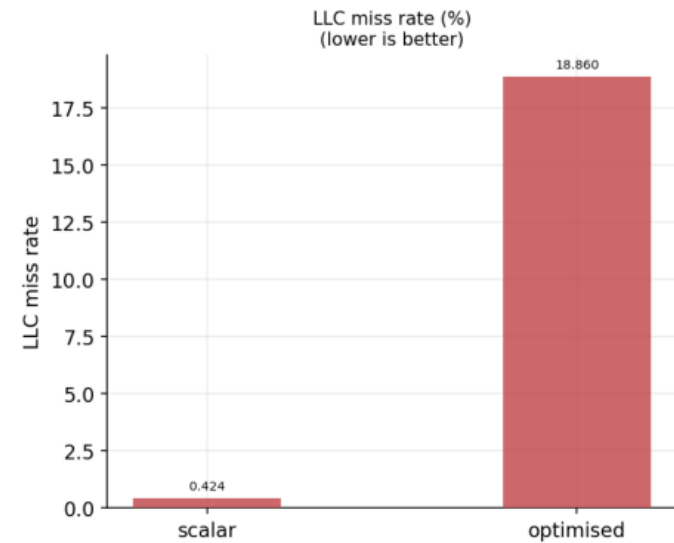

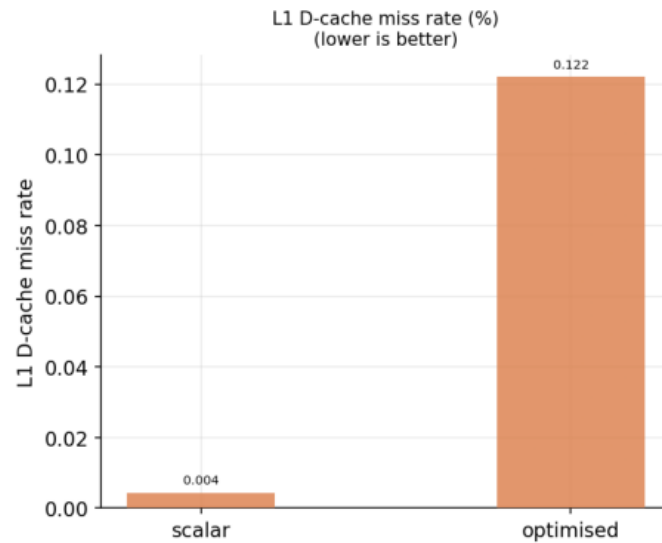

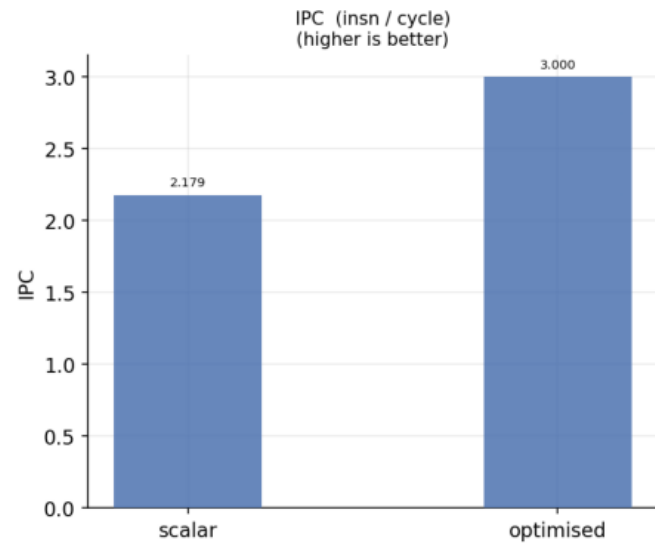

Throughput speedup
(optimised / scalar — > 1 = optimised wins)

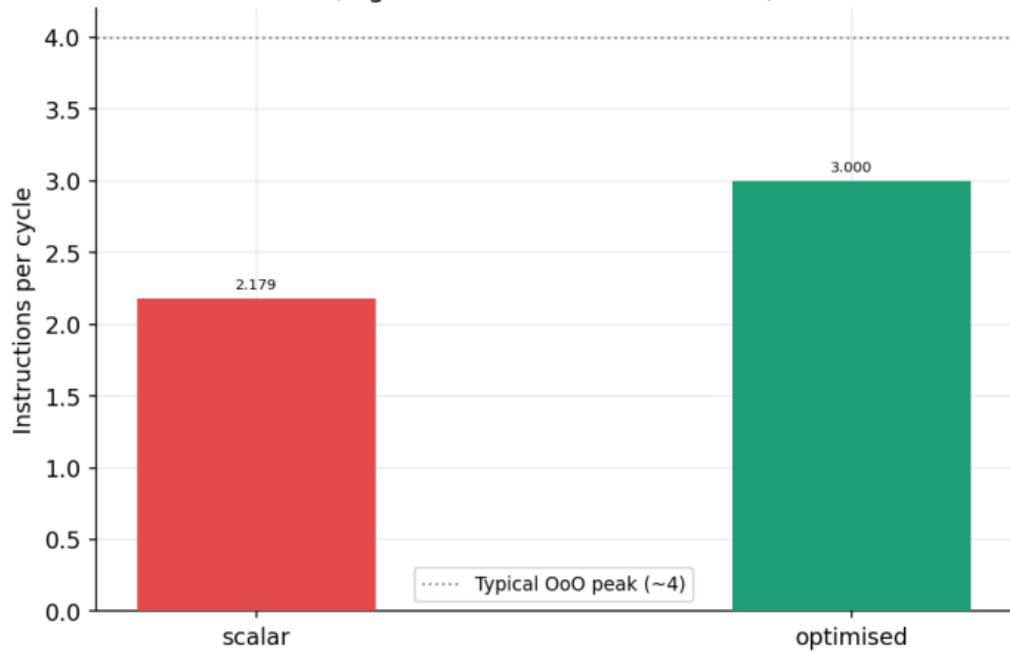

GFLOP/s speedup (estimate)
(optimised / scalar — > 1 = optimised wins)

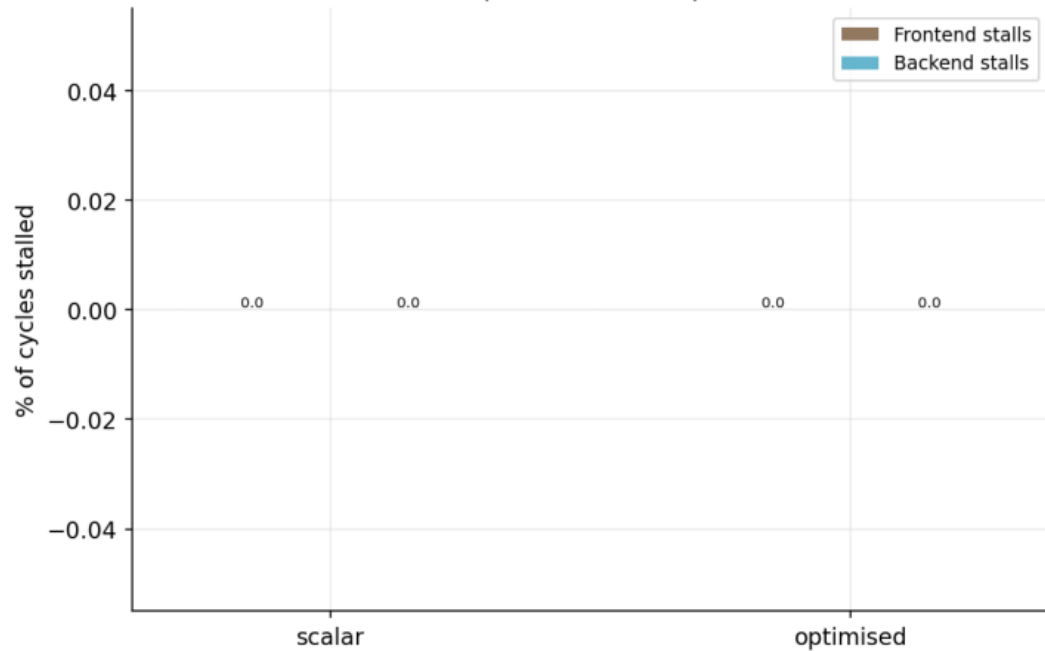

Hardware Counters — perf stat

IPC
(higher = better CPU utilisation)

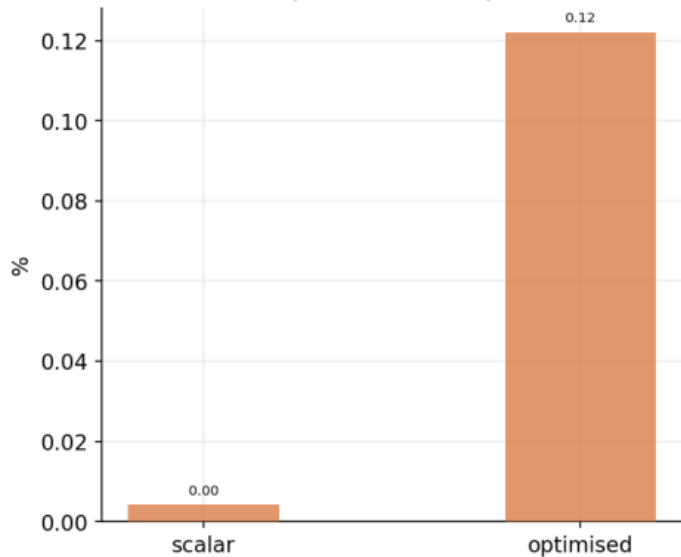

Stall cycle breakdown
(lower = better)

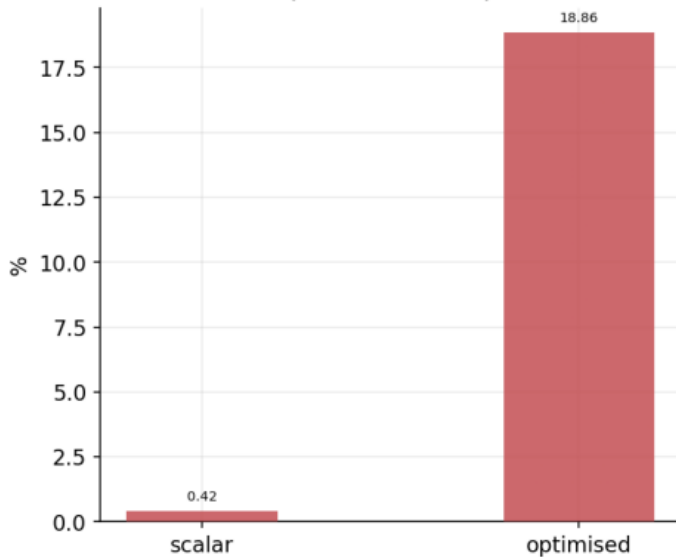

Cache & Branch Performance — perf stat

L1 D-cache miss rate (%)
(lower is better)

LLC miss rate (%)
(lower is better)

Branch miss rate (%)
(lower is better)
